

Touchless technology delivers atomized sanitizing spray.

Hygienic product utilizes disposable cartridge

SANISHOT

UD-3100

Touch Free Dispenser

- 1** Place hands under the dispenser to activate the sensor. Sanitizer dispenses automatically.
- 2** The first automatic sanitizer spray dispenser that is safe for public areas. (sprays down, not out)
- 3** Disposable cartridge affords quick and easy replacement.

Automatic

※ CDC claims "The practice of topping off might lead to bacterial contamination". SARAYA recommends dispensers with disposable cartridge including nozzle.

* Guideline for hand hygiene in health-care settings
CDC.MMWR:51(RR16),2002

1 liter disposable cartridge

Alcohol Based Sanitizer

- Broad spectrum of bacterial efficacy and quick sanitizing effect.
- Liquid spray saturates the nails and cuticles of the hands, where most germs on the hands typically reside.
- Reduce trash by use of collapsible cartridge.

※ Ask representative for more information

SARAYA

State-of-the-Art Technology

Hygienic and convenient disposable cartridge

Alcohol Based Sanitizer is sealed in disposable cartridge and proper hygiene is maintained with replacement.

Bottle coupled with bellows pump

Unique bellows pump dispenses a pre-measured amount of liquid. When cartridge is empty replace with new cartridge/pump assembly.

Easy replacement

No need to fill bottle and dilute. Simply remove the old cartridge and replace with the new one.

Battery Operated

No electric work is needed. (Alkaline size AA battery 4pce)

Easy Installation

Installation is easy with mounting plate.

Lockable

Key for vandal-resistant lock is included.

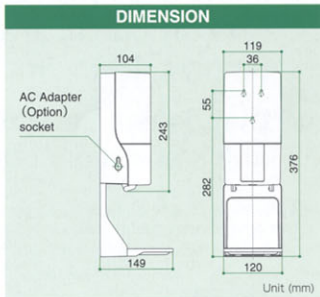

Option

AC adapter
